

November 15, 2016

**Dear Summer Camp Participant (and Family),**

We are looking forward to you attending summer camp this next summer! All campers participating in a residential camp program on campus are required to complete a health history form prior to arrival on campus. This year, all health forms will be submitted electronically via CampDoc. **Please read and follow the following steps to submit your (or your campers) health information.**

- 1. Provide your email address to the summer camp program if you have not already done so.**
- 2. Watch your inbox for a CampDoc.com invite. This is an email sent from a CampDoc.com email account and will be automatically generated once your camp receives and enters your email address.**
- 3. Log in to CampDoc on your computer, laptop or mobile phone. Complete all required fields, including the consents and waivers, as soon as possible. Deadline for submission is 3 weeks prior to the start of your summer camp.**
- 4. 1-2 weeks before the start of camp, make sure you log back in to your account and make any changes/updates to your health information and medications.**
- 5. Have a fun and healthy camp experience!**

If you have any questions regarding the CampDoc registration or health services available at camp, please contact us at [youthcamps@uhs.wisc.edu](mailto:youthcamps@uhs.wisc.edu). If you have any other camp questions, please contact your program director. Thanks again for submitting your health information and we hope to see you soon!
